

ABOUT AGRITOURISM SUMMITS

An agritourism summit is an educational and networking conference designed for agritourism professionals, and features presentations from industry leaders and experts, success stories, technical skill development and relationship building with other agritourism professionals and resources.

Oregon Agritourism Partnership presented the first Agritourism Summit in Clackamas County with the support of Clackamas County Tourism and Cultural Affairs. In 2017, two Agritourism Summits were presented in Clackamas County and also in Marion County. In 2018, a joint Agritourism Conference was presented for Clackamas, Marion and Polk County agritourism operators and tourism professionals, although many from other areas attended as well.
